PCT/EP2004/053031

Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

The application does not meet the requirements of PCT Article 6 because claims 1-5 and 16 are not clearly defined.

Claim 1 is not clear since it provides no clarity as to whether the dispersing agent and the crystallization inhibitor are the same, or two different, components (PCT Guidelines §5.31 and A5.20[2]).

Claims 1-5: the applicant is advised that the expression "preferably" and the phrases "in particular" and "if appropriate" and the expression "respectively" do not restrict the scope of protection of the claims (PCT Guidelines, §5.40).
